Selim A. Bassoul Chairman and Chief Executive Officer, commented, “In 2014, we realized solid growth and strengthened our competitive positions for each of our three business segments.”

“At our Commercial Foodservice Equipment Group, we continued to further build our business with chain restaurant customers adopting our new and innovative technologies as they seek to improve the efficiency of their restaurant operations. Additionally, we have made investments in sales and service capabilities in international markets such as Australia, Brazil, India, and the Mid-East. We continue to realize the benefits of these investments, with double digit revenue growth in overseas markets. We remain focused on product innovation across the segment, introducing products such as the TurboChef Fire oven, the Star rapid tortilla warmer, the Blodgett Helix oven technology and the Carter-Hoffmann vertical preparation station. With the 2014 acquisitions of Market Forge and Concordia and the recent 2015 acquisitions of Desmon, Goldstein Eswood and Marsal, we further broadened our portfolio of brands and product offerings and further expanded our global footprint.”

Mr. Bassoul continued, “At our Food Processing Equipment Group we realized solid progress towards our profitability goals with EBITDA margins expanding to 22.9% from 19.2% in the prior year reflecting the benefit from integration initiatives relating to numerous acquisitions completed over the past several years. Building upon Middleby’s existing international sales and distribution infrastructure, we furthered our international sales presence in markets such as China, Eastern Europe and the Mid-East. Through acquisition, we also expanded our portfolio of brands and complementary technologies. This includes the addition of the Intellijet water cutting technology from the acquisition of Processing Equipment Solutions along with the most recent addition of the Thurne branded high speed slicing technologies acquired from Marel.”

Mr. Bassoul further commented, “At our Residential Kitchen Equipment Group, we focused on the initiatives that were started in fiscal 2013. We completed the consolidation and integration of our company owned sales and distribution organization. This organization, which was established through the 2013 and 2014 distributor acquisitions and consolidation of ten independent Viking distributors covering the U.S, has now been combined into one single business unit with integrated sales, customer service, technical service and distribution capabilities. In 2014, we also brought to market a number of new and award winning product families such as the 7-series range, the French Door wall oven, and a complete new lineup of cooktops. We are currently in process of launching our new line of built-in refrigeration, soon to be followed by our Tuscany range and TurboChef rapid cook oven. Near the end of 2014, we were pleased to announce our second major addition to the residential segment with the acquisition of U-Line, a leading manufacturer of premium under-counter refrigeration, wine preservation units and ice machines. U-Line products are recognized for quality and innovation.”
